CHRISTENINGS

Making the decision to hold a christening for your baby is quite a significant one. In many families, Christenings are one of the big life events that bring all your family and close friends together. As a family owned and run business no one knows the meaning or the importance of such a family orientated day better than us.

At The Fisherman's Retreat we can take the stress and worry out of organising such a special day for your baby, leaving you and your family to spend quality time together at this very important stage of your lives.

We can accommodate from 40 up to 160 guests within our Ratcliffe Suite which boasts a private patio and balcony area, perfect for a summer's day.

We can assist you in a whole variety of ways from tailoring a buffet menu that suits you and your budget to organising balloons, bouncy castle, DJ, to recommending photographers that can capture this momentous occasion.

Reception
